LETTER OF RECOMMENDATION

I am pleased to recommend A.Dhivyadarshini, whom I have taught as her Physics teacher. During this time, she has consistently demonstrated strong academic ability, intellectual curiosity, and a sincere commitment to learning.

In Physics, she stood out for her clear conceptual understanding and disciplined approach to problem-solving. She does not rely on memorisation alone; instead, she strives to understand the underlying principles and apply them logically. Her performance in assessments reflected both accuracy and depth of thought, and she often approached challenging problems with confidence and persistence.

Beyond academics, she is a focused and responsible student who manages her responsibilities well. She actively participates in class, asks thoughtful questions, and shows a genuine interest in improving her understanding. Her consistency, resilience, and willingness to put in effort even when concepts are demanding distinguish her from many of her peers.

Dhivyadarshini is also respectful, self-motivated, and dependable—qualities that make her well-suited for a rigorous academic environment. I am confident that she will approach higher studies with the same dedication and discipline she has shown in Physics.

I strongly recommend her for admission and believe she will be a valuable addition to any academic institution she joins.

Thank you,

LETTER OF RECOMMENDATION

It gives me great pleasure to introduce A.Dhivyadarshini whom I am taking classes for the past 1 year as a student at Maharishi Vidya Mandir. During this period, I was her computer science teacher.

She has consistently demonstrated exceptional aptitude in the subject of computer science. She possesses a natural curiosity and passion for technology, which is evident in her ability to grasp complex concepts quickly, Whether it is algorithm design, programming languages, or data structures, she has consistently delivered impressive results in both theoretical knowledge and practical applications.

What sets her apart is her passion for technology and continuous learning. Outside of the classroom, she has taken initiative in exploring new areas of computer science and has participated in extracurricular activities

Beyond academic excellence, She is a collaborative and respectful team member. She is always ready to assist her peers in understanding complex concepts and encourage a positive learning environment in class. She exhibits strong time management skills, and her ability to balance academics with extracurricular activities speaks volumes about her dedication and commitment.

I have no doubt that she will continue to excel in her future academic and professional endeavours. Her combination of technical skills and positive attitude makes her an successful candidate for any opportunity she pursues. I wholeheartedly recommend A.Dhivyadarshini and believe that she will contribute positively to any program or institution.

Thank you,

K. Sasikala 6/1/2026
